

Bump and Baby promotion

The first 12 months with a new baby are always precious. At Alison Groves Photography we aim to provide our clients with priceless images of your baby's first year. This is why we are offering a special bump and baby package.

Package Includes:

Four portrait sessions.

Alison will come to you to your house or a location of your choice to capture a range precious images, typically:

- Bump shoot (usually done 1 month before your due date)
- New born shoot
- 6 months and
- 12 months

These stages can be altered by agreement with Alison. For example you may wish to wait until your baby is sitting up, and then walking. Or capture your baby's christening day.

Three viewings.

You will be invited to view your images at a slideshow in our dedicated viewing room.

- Bump and Newborn - Alison would normally show the bump and newborn shoot together.
- 6 month shoot
- 12 month shoot

During these presentations Alison will discuss the framed images or albums you would like to display your selection of images in.

Discount.

Alison will undertake 4 shoots for £100 (normally £65 per shoot).

10% off all frames and Albums purchased subsequently. Prices available at: www.alisongroves.com/content_portrait.html
